DETAILED ACTION

Election/Restrictions

1. The amendment filed on 12/23/05 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03).

The remaining claims are not readable on the elected invention because they are directed to a method of providing bacterial resistance, whereas the original claims were directed to electrocoat material comprising a bactericide.

2. Newly submitted claims 8-15, 17 and 19 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

3. Newly submitted claims 8-15, 17 and 19 are related to the original claims in a product and process of using relationship.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, newly submitted claims 8-15, 17 and 19 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
